ESCROW ANALYSIS STATEMENT

At least once every 12 months Demo Servicing analyzes your escrow account, in accordance with federal regulations, to ensure we collect sufficient funds to pay escrow items when they are due. The escrow account analysis below is an estimate of the activity that will occur in your escrow account over the next 12 months. The analysis will show if you currently have a shortage or overage in your account. This amount will be accounted for in your new monthly escrow payment unless there is an overage amount over \$50. In this case, the full amount of the overage will be refunded to you.

1. Projected Monthly Escrow Payment The section titled "Projected Escrow Activity for the Next 12 Months" is a schedule that represents all anticipated payments to and from escrow for the coming year. First, we take the total of all Projected Payments from Escrow (a) and divide it equally over 12 months to determine your Projected Monthly Escrow Payment: \$17,397.20 / 12 months = \$1,449.76. 2. Escrow Surplus/Shortage The minimum escrow balance required in your account is known as the Required Low Point. This is noted as (b) under "Projected Escrow Activity for the Next 12 Months". The Required Low Point is set in accordance with your mortgage contract, state law or federal law. Mortgage Insurance, if any, is not included in the Required Low Point calculation. Next, we compare the Projected Low Point (c) to the Required Low Point (b) to determine the overage/surplus: You have a shortage of \$6,508.34 because the Projected Low Point of -\$3,608.82 is less than the Required Low Point (b) of \$2,899.52. The shortage is divided evenly over the next 12 months and added to your Projected Monthly Escrow Payment. 3.
