

DAVID BEAR

6666 Forest Lane, Inland, Ca 99999 •(909) 555-4444
DavidBear@bear.com

I am interested in the process of machine learning and would love to get first-hand experience with the operation and advancement of the technology.

EXPERIENCE

AUG 2018 – JUNE 2019

RESIDENT SUBSTITUTE, SAN BERNARDINO CITY UNIFIED SCHOOL DISTRICT

Responsibilities included working with several groups of children from different grades to bring them up to grade level standards in reading, writing, and mathematics.

OCT 2019 – NOV 2020

DATA ANNOTATION SPECIALIST, EMMAUS ELECTRIC

I am responsible for drawing control wiring for lighting systems in commercial spaces. Taking from the budget the client has and an understanding of Title 24 electrical code we put together a solution for controlling the lights.

NOV 2020 – PRESENT

DATA ANNOTATION SPECIALIST, TESLA MOTOR WORKS

My responsibilities involve working to improve the Autopilot feature by annotating interesting images to train the AI how to respond to different driving scenarios.

EDUCATION

MAY 2018

B.S. MATHEMATICS, CALIFORNIA BAPTIST UNIVERSITY

In addition to my coursework GPA of 3.0 I contributed to the university as President of the Ultimate Frisbee club. I also contributed my technical services to the theatre program in every production during my four years there.

SKILLS

- The ability to break down a complex problem and assess the best way to solve it.
- Learning on the job and applying those lessons to future projects.
- Critical thinking.
- Inductive and Deductive reasoning.
- Communicating what needs to be done.
